SUBJECT INDEX

Volume 21

Acidification
  lake **21,** 375
Acid precipitation **21,** 33, 51
  heavy metals **21,** 317
  National Parks **21,** 171
  sulphate and nitrate content **21,** 271
  water pH **21,** 217
Activated sludge
  metal content **21,** 387
Adsorption isotherms
  surface pollution **21,** 151
Aerosol chemistry
  atmospheric pollution **21,** 171
Aerosol/vapor partition
  PCB deposition **21,** 247
Aquatic plants
  heavy metal effects **21,** 351
Ascorbic acid
  SO_2 induced changes in rice **21,** 25
Atmospheric deposition
  dry **21,** 51
  PAH **21,** 405
  PCB **21,** 247
  Wet **21,** 51
Atmospheric pollution
  aerosol chemistry **21,** 171
  effects on moss **21,** 261, 279, 317
  effects on rice **21,** 25
  epiphyte effects **21,** 279, 317
  heavy metals **21,** 317
  transport **21,** 51, 279, 317
Atomic absorption analysis
  heavy metals **21,** 71
Autoradiography
  measuring phytoplankton C fixation **21,** 359

Bacteria enteric
  pollution **21,** 415
Biocorrosion
  stainless steel **21,** 435
Bioindicators
  dandelion **21,** 77
  moss **21,** 261
Biological monitoring
  heavy metals **21,** 77
Biological samples
  preparation and analysis techniques **21,** 323
Blue crab
  Cr effects **21,** 199
  drilling fluid effects **21,** 183
Bryaphyte
  heavy metal content **21,** 317

C fixation
  phytoplankton **21,** 359
Callinectes sapidus
  Cr effects **21,** 199
  drilling fluid effects **21,** 183
Cd chloride
  effects on aquatic plants **21,** 351
Cd soil sorption **21,** 105, 115
Chamelea gallina
  fecal pollution **21,** 415
Chlorophyll
  Cd effects **21,** 351
  Hg effects **21,** 1, 351
Clam banks
  fecal pollution **21,** 415
Coliforms
  clam pollution **21,** 415
Condensation-evaporation cycles
  surface pollution **21,** 151
Cr
  effects on crab larvae **21,** 151
Crab larvae
  Cr effects **21,** 199
  drilling fluid effects **21,** 183

Dandelion
  environmental monitoring **21,** 77
Density stratification
  river water **21,** 335
Diatom
  paleo-pH indicators **21,** 375
Drilling fluids
  effects on crab larvae **21,** 183
Dyes
  adsorption from solution **21,** 127
Dry deposition **21,** 51

Enteric bacteria
pollution **21**, 415
Environmental samples
preparation and analysis techniques **21**, 323
Epiphyte
metal content **21**, 279, 317
Estuarine phytoplankton
C fixation **21**, 359

Fe
fungal solubilization **21**, 435
Fecal pollution
indicators **21**, 415
Fertilizer
K runoff **21**, 97
P runoff **21**, 87
Fish
Hg content **21**, 15
PCB content **21**, 15
pesticide effects **21**, 9
Forest
heavy metal deposition **21**, 71, 161
PAH deposition **21**, 425
Fungal biomass
metal ion concentration **21**, 411
Fungal solubilization
Fe **21**, 435

Gelchromatography
sludge metal speciation **21**, 387
Groundwater
K content **21**, 97
P content **21**, 87

Hg
effects on plants **21**, 1
fish content **21**, 15
Hypnum cupressiforme
pollution indicator **21**, 261

Inductively coupled plasma emission
spectroscopy of biological samples **21**, 323

K
watershed balance **21**, 97

Lake acidification
diatom indicators **21**, 375
Lake sediments
S content **21**, 231
Leaf injury index
Hg effects **21**, 1

Mercuric chloride
effects on aquatic plants **21**, 351
Metals, heavy
dandelion content **21**, 77
effects on aquatic plants **21**, 351
epiphyte content **21**, 279, 317
forest deposition **21**, 71, 161
moss content **21**, 261, 279
neutron activation analysis **21**, 77
speciation in activated sludge **21**, 387
Metal ions
concentration by fungi **21**, 411
Moss
metal content **21**, 261, 279, 317
PAH **21**, 279
PCB **21**, 279
pesticide content **21**, 279
Mussels
fecal pollution **21**, 415
Mystus vittatus
pesticide effects **21**, 9

National parks
visibility **21**, 171
Neutron activation analysis
heavy metals **21**, 77
Nitrate
raw content **21**, 271

O_2 stratification
river water **21**, 335
Oil, crude
degradation in soil **21**, 225

P
watershed balance **21**, 87
PAH
atmospheric deposition **21**, 405
epiphyte content **21**, 279
forest deposition **21**, 425
Paleolimnology
acid lake studies **21**, 375
Pb
biological accumulation **21**, 447
PCB
atmospheric deposition **21**, 247
epiphyte content **21**, 279
fish content **21**, 15
Pesticide
effects on fish **21**, 9
epiphyte content **21**, 279
movement in soil **21**, 439

pH, soil
sour gas plant effects **21**, 403
Phorate
movement in soil **21**, 439
Phytoplankton productivities
power plant entrainment effects **21**, 359
Plants
aquatic leaf senescence **21**, 351
effects of Hg **21**, 1
Pb from sewage sludge **21**, 447
tissue digestion methods **21**, 323
Pollution indicator
dandelion **21**, 77
moss **21**, 261
Pore and capillary systems
surface pollution **21**, 151
Power plant entrainment
effects on phytoplankton C fixation **21**, 359
Precipitation
nitrate content **21**, 271
sulphate content **21**, 271
Precipitation chemistry **21**, 171

Rhithropanopeus harrisii
Cr effects **21**, 199
drilling fluid effects **21**, 183
Rice
effects of SO_2 **21**, 25
River
chemically-based density stratification **21**, 335

S
deposition in water **21**, 217
lake sediment content **21**, 231
Sediment, lake
diatom stratigraphy **21**, 375
fecal pollution **21**, 415
S content **21**, 231
Sewage sludge
effects on vegetation **21**, 447
metal content **21**, 387
Snow
heavy metal content **21**, 71
pollution release at melt **21**, 141
SO_2
effects on rice **21**, 25
Soil
Cd sorption **21**, 105, 115
crude oil degradation **21**, 225
effects of sewage sludge **21**, 447
heavy metals **21**, 161
phorate movement **21**, 439
Solute redistribution
snow melt **21**, 141
Sorption hysteresis
pollution effects **21**, 151
Sour gas plant
pH of nearby soil **21**, 403
Spectroscopy
inductively coupled plasma emission **21**, 323
Stratification
river water **21**, 335
Sulphate
rain content **21**, 271

Transport
atmospheric pollution **21**, 51, 279, 317

U
removal by fungi **21**, 411
Urban air pollution
patterns **21**, 279

Vegetation
Hg effects **21**, 1
leaf senescence **21**, 351
sewage sludge effects **21**, 447
Visibility
national parks **21**, 171

Water
fecal pollution **21**, 415
pH **21**, 217
river stratification **21**, 335
Water acidification
SO_2 deposition **21**, 217
Watershed balance
K **21**, 97
P **21**, 87
Wet deposition **21**, 51
